INDEPENDENT AUDITOR'S OPINION

To the members of the Board of Directors and Executive Director **PROFONANPE**

October 09, 2020

1. We have audited the accompanying financial statements of **PROFONANPE** which comprise the statements of financial position as of December 31, 2019 and 2018 the statement of comprehensive income, changes in equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory notes from 1 to 23.

Management's responsibility for the financial statements -

2. Management is responsible for the preparation and fair presentation of these financial statements in accordance with general accepted accounting principles in Peru. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility -

3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with international standards on auditing approved in Peru by the Board of Deans of Colleges of Public Accountants of Peru. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the **PROFONANPE** preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as the overall presentation of the financial statements.

4. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion -

5. In our opinion, the financial statements above indicated present fairly, in all material respects, the financial position of **PROFONANPE** as of December 31, 2019 and 2018, as well as its financial performance and its cash flows for the years then ended, in accordance with accounting principles described in Note 2 to the audited financial statements.

Matter of importance -

6. According to the principles and practices used by **PROFONANPE** for the accounting registration of funds from Agreements financed by International Cooperation Agencies, in which it acts as manager of donated financial resources and in other cases derive these to other Government entities or non-profit associations for the realization of projects on conservation and management of the environment, funds received and expenses executed are recorded through assets accounts (Cash and Cash Equivalents, Other Accounts Receivable and Financial Investment) and liabilities (Management Funds), which is why they are not included as revenue or as expense in the statement of comprehensive income for the period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

1. GENERAL INFORMATION

1.1 Identification

The Peru's Fund for the Promotion of Protected Areas (hereinafter PROFONANPE), is a non-profit institution of private law and public and social interest, established by Law Decree N° 26154 dated December 29, 1992, to manage the National Fund for Natural Areas protected by the Government, whose regulation was approved by Supreme Decree N° 023-93-AG on July 13, 1993. The regulation of the PROFONANPE's social status was approved by its Board of Directors at the meeting dated August 25, 2009 and registered in the Public Records in Lima, Peru, on January 15, 2010. PROFONANPE is governed by its Statutes and by the rules of the Civil Code of Peru.

The legal address of PROFONANPE is located at Av. Javier Prado Oeste N° 2378, San Isidro, Lima – Peru.

1.2 Economic activity

Activities developed by PROFONANPE are outlined by Law N° 26154 and its regulations approved by the Executive Branch which establishes the National Fund for Natural Areas Protected by the Government – FONANPE, constituted as an intangible trust fund for conservation of natural protected areas. Such activities are aimed to the conservation, protection and management of Peru's protected areas, promoting conservation and sustainable development of influence zones, like the conservation of cultural and natural heritage included in the protected areas. The projects executed by PROFONANPE are funded by different International Cooperation Agencies and other non-profit organizations.

1.3 Funds managed by PROFONANPE

In compliance with its corporate purpose, PROFONANPE manages the trust fund established by Article 1 of Law N° 26154 aimed to the conservation, protection and management of natural areas protected by the Government. At December 31, 2017, PROFONANPE remains under its management a set of projects funded by International Technical Cooperation Agencies and Government Agencies through the form of an Exchange of External Debt for Nature, as well as private sector entities and include: Global Environment Facility – GEF; International Bank for Reconstruction and Development – BIRF, Interamerican Development Bank-IADB, International Fund for Agricultural Development – FIDA, KfW from Government of Germany and Green Fund Climate.

In the extraordinary session of April 26, 2019, the board of directors of PROFONANPE appointed the new executive director.

The detail of projects managed by PROFONANPE at December 31, 2019, is shown below:

1.4 New general guidelines for the Investment Portfolio and selection of Swiss UBP Bank

In the extraordinary session held on August 06, 2018, the Board of Directors approve the new general guidelines of PROFONANPE's investment portfolio, setting the ranges from 40% to 100% in fixed income financial assets; from 0% to 40% in variable income financial assets; and from 0% to 20% in alternative income financial assets.

In addition, the board of directors agreed to ratify the selection of the Swiss UBP Bank as administrator of the PRONANP portfolio, included in the FONANPE patrimonial fund.

1.5 Merger by absorption of the National Environment Fund -FONAM

Emergency Decree N° 022-2020, provided that PROFONANPE, through the modality of merger by absorption, assume the assets, liabilities and assets of the National Environmental Fund -FONAM, which is a non-profit private law institution. In addition, the aforementioned decree empowers PROFONANPE to administer the resources collected from the National Fund for Natural Areas Protected by the State - FONANPE and entrusts it with the performance of the Technical and Financial Secretariat of the Management Board of the Contingency Fund for Environmental Remediation.

1.6 Approval of financial statements

The financial statements for the year ended December 31, 2019 have been issued and will be submitted for approval of the Board of Directors, in accordance with literal I), article Fifteenth, Title III of the PROFONANPE' Bylaws. In the opinion of the Executive Management, the accompanying financial statements as of December 31, 2019, will be approved without modifications. Likewise, the financial statements for the year ended December 31, 2018 are pending approval, having delivered to the members of the Board of Directors, on August 06, 2018, a copy of the audit report of the institutional financial statements for the year ended December 31, 2018, with the minutes of compliance of the Audit Committee.

2. ACCOUNTING PRINCIPLES AND PRACTICES

The accounting principles and practices applied in the preparation and presentation of these financial statements are detailed below. These principles and practices have been applied consistently in the years presented, unless otherwise indicated:

a) Basis of preparation and presentation of financial statements

(a.1) Basis of preparation

The financial statements of for-profit companies are prepared in accordance with the International Financial Reporting Standards - IFRS, issued by the International Accounting Standards Board - IASB, officialized in a complete set by the Accounting Standards Board as of December 31, 2019 , by resolution No. 003-2019-EF / 30 of September 19, 2019, as it is the national accounting entity that approves the accounting standards for the private sector, in accordance with legislative decree No. 1438.

The information contained in these financial statements are the responsibility of the management of PROFONANPE, who expressly confirms that for its presentation, accounting principles and practices applicable to non-profit associations in Peru have been applied. These financial statements arise from PROFONANPE's accounting records and have been prepared on the basis of historical cost.

(a.2) Officialized standards by the Accounting Standards Council (ASC).

The Accounting Regulatory Council made official the 2018 version of the International Accounting Standards –NIC for its application in Peru; International Financial Reporting Standards - IFRS; Interpretations of the International Financial Reporting Standards - IFRIC; e, Interpretations of International Accounting Standards - SIC, adopted by the International Accounting Standards Board - IASB that include: IFRS, from 01 to 17; NIC, from 01 to 41; Interpretations of IFRIC N ° 1, 2, 5, 6, 7, 12, 14, 16, 17, 19,20, 21, 22, 23; e, Interpretations of IAS-SIC N ° 10, 25, 29 and 32.

In the opinion of management, the adoption of these standards and interpretations will have no significant effect on the financial position and performance of the entity when applied.

(a.3) Basis for presentation

The financial statements are expressed in American dollars as part of this report, which are the result of applying on the historical financial statements in Soles the methodology for translating balances at year end in foreign currency adopted by the entity. This methodology is intended to prepare the financial statements in order to show the impact of foreign currency in local currency, on the basis of one fiscal year, therefore it is considered the following guidelines:

- i) The conversion process initially requires quantifying the functional currency, which in this case is the Sol.
- ii) The conversion is performed on the following statements: statement of financial position; statement of comprehensive income; statement of changes in equity and statement of cash flows, which are referred to the historic conversion of non-monetary items and show the effect of conversion on all operations of the period under review.
- iii) The balances of monetary items are translated at the exchange rate at year end established by the Superintendence of Banking and Insurance and AFP, and income and expenses in foreign currency are translated at the exchange rate of the date when each transaction occurred.
- iv) Exchange rates published by the Superintendence of Banking and Insurance and AFP at December 31, 2019 for transactions of purchase and sale for American dollar, were S/. 3.311 and S/. 3.317, respectively. (S/ 3.369 and S/ 3.379 for transaction of purchase and sale at December 31, 2018)

b) Functional currency

Items included in the financial statements are expressed in the currency of the primary economic environment in which the entity (functional currency) operates. The financial statements are presented in Soles which is the functional and presentation currency. Nevertheless, the financial statements are also presented in American dollars at the end of the period.

c) Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand, deposits in current accounts and time deposits in bank institutions.

d) Use of estimates

The preparation of financial statements in accordance with applicable accounting standards requires the entity makes estimates and assumptions in determining the amounts of assets and liabilities, income and expenses, and disclosure of significant events in the notes to the financial statements. Actual results could differ from those estimates. Estimates are continually evaluated and are based on historical experience and other factors. The significant estimates related to the accompanying financial statements are referred mainly to the depreciation of fixed assets and amortization of intangibles.

e) Furniture and equipment and accumulate depreciation

Fixed assets are initially recorded at historical cost. Subsequently, they are measured at cost, less accumulated depreciation and the cumulative amount of losses by impairment of assets if applicable. Disbursements for maintenance and repairs are charged to results and all renewal and improvement, is charged to results. All renewal and improvement is always capitalized as long as:

- It is probable that the entity obtains future economic benefits and,
- Its cost can be valued reliably. The cost and corresponding accumulated depreciation of sold or retired assets are removed from the respective accounts and withdrawn net cost is included in the results of the year.

The improvements made to the leased properties are recorded as post of the fixed assets, including the corresponding depreciation.

Maintenance and major repairs

The major maintenance includes the replacement cost of parts of the assets and the overhaul cost that takes place every certain number of periods, in order to maintain the asset's operational capability. The cost of major maintenance capitalizes in the initial recognition of the asset, as a separate component of the good and is depreciated on the estimate of time when the next major maintenance will be required.

Depreciation

The depreciation of assets that comprise this category is calculated following the straightline method, in order to assign the cost during their estimated useful life, whose detail is as follows:

	<u>Years</u>
Improvements in leased properties	10
Furniture and facilities	10
Computer equipment	04
Transport units and equipment	05
Other equipment	10

The residual value, useful life and depreciation method are periodically reviewed to ensure that the method and the depreciation period are consistent with future economic benefits and life expectations of the items in this category.

f) Intangible

Assets are recorded at acquisition cost, less accumulated amortization and the cumulative amount of losses by impairment of assets, if applicable. These assets include, primarily, the acquisition of software used in entity's operations and are recognized when:

- The property is under the control of the entity.
- The good is identifiable to any contractual rights
- Future benefits are expected.

The intangibles that are acquired with funds from projects financed by international cooperation are registered in the caption "funds in administration"

The limited life intangible assets are amortized in a maximum period of 10 years. As a policy, intangibles are amortized under the straight-line method on the basis of its estimated useful life. The period and amortization method are reviewed at the end of the period.

g) Impairment of assets

When there are events or economic changes that indicate the value of a long-lived asset may not be recoverable, the Executive Director reviews at each date of the statement of financial situation, the carrying amount of these assets. If after this analysis, it seems that its carrying amount exceeds its recoverable value, a loss for impairment is recognized in the income statement. Recoverable amounts are estimated for each asset.

h) Investments portfolio

The Entity's investment portfolio consists of a set of Funds created at the request of International Cooperation Agencies (World Bank and KfW of Germany) and the Government of Germany and included in the agreements signed with PROFONANPE for the implementation of environmental projects. The Investment Portfolio is managed by a local financial entity and a bank in Switzerland, on the basis of the trust commission contracts entered into and include an automatic renewal clause, which are distributed in fixed and variable income financial assets. These financial assets are recorded at cost in foreign currency and are presented at fair value at the end of the period.

The yields at the end of the year represent the increases obtained by the investment portfolios, which are related to the projects financed by each Agreement. The use of the yields generated by the investments is restricted to the amounts of the budgets prepared by the entity that administers the projects, which must be approved by the respective International Cooperation Organizations.

The decreases in each investment portfolio are recorded when there is the withdrawal of funds for the execution of projects that gave rise to them and the payment of commissions for the management of the portfolios against the heading Funds in Administration.

i) Management funds

This category represents a deferred liability that reflects the net funds to implement the projects financed by cooperation international donors that PROFONANPE maintained under management. These funds come from cash transfers received to form investment portfolios and / or to the implementation of expenditure on projects.

Credits under this heading occur when the entity receives funds from international cooperating sources to finance the expenses foreseen in the budget of the Agreement, as well as when donors provide for the increase in the investment portfolio created previously. The returns obtained by the portfolios in the year are recorded as a credit to this item and directly affect the balance of the corresponding project subaccount.

Charges in this item are recorded for: i) the withdrawal of funds from the Portfolio required by the entity for the activities in some project; ii) payment of trust commissions in favor of the financial institution that administers the portfolio; and, iii) when the investment Portfolios obtain negative yields. Also, the disbursements of projects that require the

acquisition of equipment and vehicles, as appropriate, as well as the financing of intangibles required for institutional strengthening are incorporated.

j) Employee' benefits

The entity has short-term obligations for employee's benefits that include salaries, social contributions, bonuses, employee severance indemnities. These obligations are normally recorded with a charge to the statement of comprehensive income as they accrue.

k) Provisions

Provisions are recognized when the entity has a present legal or constructive obligation, resulting from past events that are likely to require the delivery of a flow of resources involving economic benefits for settlement and its amount can be estimated reliably.

I) Recognition of revenues

Revenues generated by way of contribution (overhead) to the institutional development for the management of projects financed by international technical cooperation are recorded when received. In this category, the funds received by the entity arising from cash donations from international sources cooperating are not recorded, because they are controlled through of assets and liabilities accounts.

m) Recognition of expenses

Expenses are recognized as they accrue and in the period to which they relate, regardless of when they are paid. Funds applied by project executing entities from cooperating international sources, whose expense receipts are issued in the name of PROFONANPE (project management entity) are not recorded in the statement of comprehensive income, but are controlled through the heading Funds in Administration.

n) Financial income and expenses

Financial income and expenses are recognized in the income statement in the periods to which they are related and are recognized when earned, regardless when it is received or disbursed.

3. CASH AND CASH EQUIVALENTS

It comprises:

	In U.S. Dollars		
	2019	2018	
Current accounts for specific purposes (a) Saving accounts (b)	7,914,477 29,450	7,857,731 30,498	
Fixed-term deposits			
Total	7,943,927	7,888,229	

- (a) Current accounts are held in banks and are denominated in Soles and U.S. Dollars, whose balances correspond individually to the availability of funds in projects financed by International Technical Cooperation Organizations. These funds are freely available and do not generate interest at market rates.
- (b) The balances available in savings in financial system entities in Soles are freely available and correspond to the Fondo Editorial project. The annual interest rate on the balances in 2019 was 0.246% (0.246% in 2018).

4. OTHER ACCOUNTS RECEIVABLE

Detailed information on the structure and variations of the Investment Portfolio for the period ended December 31, 2019 is described in Annexes 1 and 2 of the supplementary information attached to this report.

Management policies for Portfolio resources.

The conditions and guidelines established for the management of investment portfolios are the following:

a) PY-007 "Project Management of Natural Resources in Rivers Morona and Pastaza" External Debt Swap with the Government of Germany"

The Intergovernmental Peruvian – German Agreement for debt restructuring held between the Government of Peru and the Government of Germany, this project was assigned to Deutsche Mark 14.7 million. The trust commission contract with the local bank was signed on September 01, 2003 with yearly validity and renewable for equal periods, having signed the last addendum to the contract on March 31, 2014

The net amount as of December 31,2019 of the investment portfolio amounted to US \$ 4,168,024.

b) PY-015 Project "Establishment of Fund for Managing and Recovering Paracas National Reserve" Pluspetrol Peru Corporation SA

The Tripartite Agreement signed between PLUSPETROL, SERNANP and PROFONANPE establish a Fund for Managing and Recovering Paracas National Reserve up to US\$ 3.0 million, having signed the trust commission contract with the local bank on September 30, 2009.

The net amount as of December 31,2019 of the investment portfolio amounted to US \$ 6,574,756.

c) PY-035 "Project PRONANP Equity Fund", International Bank for Reconstruction and Development – BIRF / KfW of Germany

On August 16, 2010, the International Bank for Reconstruction and Development – BIRF, as implementing agency of the *Global Environment Facility* – GEF signed with PROFONANPE the Grant Agreement TF097155 to finance the implementation of the project "Strengthening the Conservation of Biodiversity through the National Protected Areas Program" – PRONANP up to US8.8 million. From this amount, it was agreed to entrust the management and investment of US\$ 3.0 million to establish an equity fund for the financial sustainability of protected areas within the selected Ecological Corridors. Additionally, on August 19, 2013 was made an additional contribution to this portfolio for EUR 5.0 million (US\$ 6'621,936) from the Expansion Contract signed with KfW of Germany at December 31, 2012.

In August 2018, the Board of Directors, following the recommendation made by KfW of Germany, agreed to transfer the funds from the PRONANP portfolio, included in the FONANPE endowment fund, to the UBP Bank of Switzerland.

The net amount as of December 31,2019 of the investment portfolio amounted to US \$ 10,341,887.

d) PY-036 "Project Effective Management of Protected Natural Areas – SINANPE III": Government of Germany

It is related to the Exchange Debt operation with the Government of Germany signed on June 30, 2011 by EUR 7,998,907 (approximately US\$ 8.2 million) to support the project. From this amount, the project financing amounted to EUR 5.7 million. On December 12, 2011, it was signed the trust commission contract with a local bank, valid for one year and renewable for equal periods, having signed the corresponding Addendum on March 31, 2014.

The net amount as of December 31,2019 of the investment portfolio amounted to US \$ 2,441,890.

e) PY-056 Patrimonial Fund of the Project "Strengthening the Sustainable Management of the National Reserve System of Islands, Islets and Guaneras Points." On February 11, 2014, the Donation Agreement was signed between the World Bank, in its capacity implementation agency of the Global Environment Facility - GEF, and PROFONANPE, to finance the activities

in the project for up to US \$ 8.9 million. Also, the Endowment Fund was established for US \$ 2.0 million, having signed the trust commission contract on December 19, 2014 and is valid for one year, renewable for equal periods.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 2,174,843

f) PY-062 Project "Building Resilience in the Wetlands of Datem Province of Marañón, Peru"

On July 19, 2016, the Green Climate Fund signed the Master Accreditation Agreement with PROFONANPE to finance the project "Building Resilience in the Wetlands of Datem Province of Marañón, Peru", which was approved in November 2015 and started its activities in June 2017. This project aims to improve the resilience capabilities (the ability of humans to adapt positively to adverse situations) of indigenous communities living in carbon-rich wetland ecosystems in Datem Province of Marañon in the Loreto Region.

On December 15, 2016, the Green Climate Fund and PROFONANPE signed the Financed Activity Agreement for the execution of the project. According to the budget approved by the Agreement, the amount financed amounts to US\$ 9'110,000, of which US\$ 6'240,000 is contributed by the Green Climate Fund; US\$ 1'800,000 is contributed by the Government of South Korea and US\$ 1'070,000 corresponds to the counterpart provided by PROFONANPE. The implementation period for the Agreement is five years, i.e. from March 2016 to February 2021.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 519,665.

g) PY-064 "Vilcanota Reserves Network, Conservation of Polylepis Forests of Peru". On September 09 and 25, 2017, the Global Conservation Fund and PROFONANPE signed a Donation Agreement for the establishment of the Vilcanota Polylepis Equity Fund, up to an amount of US\$ 938,908.09. The purpose of the Fund is to finance the administrative costs of conserving the biological diversity of the Vilcanota Polylepis Reserve, in accordance with the terms and conditions established in the operations manual and in each operational plan. In this regard, the Government Natural Protected Areas Service – SERNANP should ensure that expenses are used exclusively to finance the costs of biodiversity conservation in the Reserve Areas. On February 16, 2018, PROFONANPE signed a trust commission contract with a local bank to invest funds received from Conservation International Foundation.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 1,036,138.

PY-065 Project "Conservation and sustainable use of the high Andean ecosystems through payment for environmental services for rural poverty alleviation and social inclusion". On June 12 and October 06, 2015, the International Fund for Agricultural Development (IFAD) (acting as the Implementing Agency of the Global Environment Facility – GEF) and Ministry of Environment - MINAM, respectively, signed the Financing Agreement for the implementation of the project entitled "Conservation and sustainable use of the high Andean ecosystems through payment for environmental services for rural poverty alleviation and social inclusion", which establishes a non-reimbursable contribution from IFAD, for a total amount of US\$ 5'354,545.00, which would be disbursed on the agreed opportunities, amounts and terms. According to the established agreement, the amount to be destined to the establishment of the Investment Portfolio amounts to a total of US\$ 2.0 million. The trust commission agreement signed between PROFONANPE and a Peruvian bank was signed on October 12, 2017 is valid for one year and is renewable for equal periods.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 2,201,393.

i) PY- 080 "National Fund of Natural Areas Protected by the Government- FONANPE" On December 14, 2018, PROFONANPE'S Board of Directors adopted agreement to integrate the investment portfolios correspondent to projects as follows: PRONANP (PY-036); ALTO MAYO (PY-035); FINLANDIA (PY-025); GPAN (PY-020); GEF (PY-002); SINANPE III (PY-036) and, Canada (PY-026), transferring the funds from these portfolios to constitute the FONANPE. The entity has signed a trust commission contract with a local bank for the administration of FONANPE funds.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 14,199,950.

j) PY-085 SINANPE Strengthening Project. This is a portfolio that is extinguishable and has its origin in the FONANPE portfolio that has been constituted by agreement of the Board of Directors for up to US \$ 1.33 million, to finance activities and institutions of SINANPE and to SERNANP activities, as well as financing of the organization of the first PROFONANPE project competition.

The net amount as of December 31, 2019 of the investment portfolio amounted to US \$ 2,782,131

Annual behavior of Portfolio Investment

At the end of 2019, the market value of the investment portfolios managed by Credicorp Capital - Peru was US \$. 36.1 million, which despite registering an accumulated profitability of US \$ 4.91 during the period, shows a nominal decrease of US \$ 5.3 million compared to the amount at the end of 2018.

In 2019, economic agents and markets were permanently affected by the trade conflict between the United States and China, which began in mid-2018. The sequence of events took place in the search for a settlement, and eventual setbacks due to threats of more tariffs from North America, which had a decisive influence on decision-making and price formation in the different markets.

The markets started the year favorably, with an upward phase sustained by a series of satisfactory corporate results from several leading Wall Street companies, as well as some advances in trade deals between the United States and China that augured a speedy solution. This trend was maintained throughout the first four months of the year, a period during which the MSCI ACW (All Country World Index), an indicator that considers all the world's stock markets, reached accumulative gain of 15.18% while the Peru Select, the main indicator, rose 9.09%, reaching its highest level in April (570.62 points). In May this trend changed dramatically when the United States government announced new tariffs on Chinese imports. This trade showdown cut MSCI ACWI's earnings by roughly 6%.

Negative expectations eased in June, giving way to some optimism as monetary authorities in key developed countries began to show signs that they were evaluating easing their policy towards further cuts in its benchmark rates.

Against this background, the S & P / BVL Peru Select index closed with annual variations of \pm 3.72%. The highest returns abroad were in North America and Europe. Thus, the S&P 500 rose 28.9%, followed by the Dow Jones and Nasdaq (both \pm 22.3%).

PROFONANPE is not governed by the General Law of the Financial System and of the Insurance and Organic System of the Superintendence of Banking and Insurance, Law N° 26702. For this reason, the provisions of Resolution N° 7033-2012 of the Superintendence of Banking, Insurance and Pension Fund Administrators regarding the classification and valuation of investments are only applicable to companies in the financial system. Article 10 of these regulations establishes that debt instruments must be restated to amortized cost, applying the effective interest rate methodology and, based on the amortized cost obtained, gains and losses from changes in fair value must be recognized. In the case of PROFONANPE, total investments are recorded at market value, which is provided by the asset manager.

According to the Regulation on the Classification and Valuation of Investments of Financial System Companies, the fluctuation in the value of investments is obtained by comparing the fair value with the accounting value, obtaining a gain by fluctuation if the fair value is higher, otherwise it would be a loss. For PROFONANPE, the unrealized gain or loss (fluctuation of values) is presented in the reports sent by the Asset Manager, in which the market value is compared with the average purchase value, but for accounting purposes this is not considered. It is important to highlight that the accumulated net yield resulting from the comparison of the quota values of the investment portfolios or from the variation of the final and initial balance of the portfolios is accounted for in their financial statements.

At the end of 2019, the market value of the investment portfolios managed by UBP Switzerland were US \$. 10,341,887, registering a nominal increase of US \$ 6,358,107 compared to the opening amount, dated March 12, 2019, of US \$ 3,983,780. This increase is explained to a greater extent by the contributions (capital increase) during the month of March in US \$. 5,393,942 and April at US \$ 429,921. Likewise, at the end of the year there is a net accumulated profitability of US \$ 534,244

The portfolio is composed according to the following classification: fixed income assets (82%) and equity assets (18%).

The overall performance of PROFONANPE investment portfolio as of December 31, 2019 amounted as US\$ 46,436,677 and the summary is as follows:

		In U.S. Dollars
-	Beginning balance	41,428,931
-	Contributions	13,312,233
-	Commissions and management	(180,736)
-	Gross performance	5,605,533
-	Withdrawal	(13,729,284)
		46,436,677

The movements of the investment portfolio as of December 31, 2019 and its structure made up of fixed interest, variable interest and alternative interest securities, are shown in Annex's 1 and 2 of supplementary information.

7. FURNITURE AND EQUIPMENT

21. SUBSEQUENT EVENTS

There are no events subsequent to December 31, 2019 and 2018, that have been identified and must be reported or that affect the balances of the financial statements as of those dates, except for the following.

The sixth final complementary provision of Emergency Decree N° 022-2020, provided that PROFONAPE, through the modality of merger by absorption, assume the assets, liabilities and equity of the National Environmental Fund - former FONAM, which is an intangible trust fund and, at the same time, a non-profit private law institution created by Law N° 26793. In addition, PROFONANPE was empowered to administer the resources collected by the sources of financing referred to in article 4 of Law N° 26154 that creates the National Fund for Natural Areas Protected by the State - FONANPE; providing that the Ministry of the Environment carry out the monitoring and evaluation of the resources transferred by the national government, regional governments and local governments in favor of PROFONANPE that will be destined for specific purposes, for which reason, they will be under the scope of application of the Law No. 27785.

Upon completion of the merger between both entities, the Ministry of the Environment must approve by Supreme Decree the internal regulations of PROFONANPE, specifying this legal norm that any reference made to FONAM or the powers that it had been exercising are understood as being made by the absorbing entity, being one of They serve as the Technical and Financial Secretary of the Board of Directors of the Contingency Fund for Environmental Remediation created by Law N° 30321 and its regulations, approved by Supreme Decree N° 039-2016-EM.

Through Supreme Decree N° 044-2020-PCM of March 15, 2020, the National Government declared a State of National Emergency in Peru as a result of the COVID-19 outbreak, which has been classified as a pandemic by the World Health Organization and later, extended the term of these exceptional measures, in order to protect the life and health of the population, limiting the exercise of the right to freedom of movement, suspension of attendance at schools and universities, restrictions in the field of commercial activity, cultural activities, establishments and recreational activities, among others. Subsequently, such restrictions were lifted as of August 15 in a targeted manner by zones throughout the republic.

Consequently, the critical processes of financial management in PROFONANPE are being developed virtually.

Considering the uncertainty and the rapid evolution of the circumstances explained above, including the new actions that the National Government could take to contain the COVID-19 outbreak, as well as its effect on the national economy, it is not possible to predict the extent to which it could the future operations of the entity and its financial results will be affected if this situation is prolonged in time.

22. TAX STATUS

According to article 19 of the Single Ordered Text (TUO) of the law on income tax, issued by legislative decree No. 774 and its regulations approved by supreme decree N° 179-2004-EF, modified by legislative decree N° 1312 that modifies Income tax law, non-profit associations in Peru are not subject to the tax. Law N° 30404 extended the exemptions included in article 19 of the TUO of the income tax law until December 31, 2018 and Law N° 30898 extended the exemption until December 31, 2019. Subsequently, the emergency decree N° 025-2019, ordered to extend until December 31, 2020, the exemption from the payment of income tax to foundations and non-profit associations, whose constitution instrument includes the following purposes: charity, social assistance, education, cultural, scientific, artistic, literary, sports, political, union and / or housing.

The Income Tax affidavits submitted for the years 2015 to 2019 are pending for review by the National Customs and Tax Administration Superintendence – SUNAT which have authority to carry out this procedure, including the unaffected taxpayers within the following 4 years after submitting the affidavit. Considering the possible interpretations that tax authorities may provide on current tax regulations, it is not possible to determine to date, if the revisions to be performed could be liabilities or not for the institution.

In the opinion of the Executive Director of PROFONANPE, any eventual additional tax settlement would not be important for the financial statements, as of December 31, 2019.

23. FINANCIAL RISK MANAGEMENT

The risk management structure is based on the Board of Directors and the Executive Director of the entity, who are responsible for identifying and controlling the risks to which the entity is exposed, as explained below:

i. Board of directors.

It is the body responsible for establishing the general approach to risk management and the approval of current policies and strategies. The Board of Directors is responsible for providing the principles for risk management, as well as the policies prepared for specific areas, such as exchange rate risks and interest rate risk.

ii. Executive Director.

It is responsible for supervising the entity's risk management. Likewise, it provides security over the procedures and financial risks identified, measured and managed in accordance with the guidelines approved by the Board of Directors. The Executive Director reviews and approves the risk management policies as described below.

iii. Administrative and finance Manager

The Executive Director is supported by the Administrative and Finance Manager, being responsible for managing the entity's flow of funds on a daily basis, taking into consideration the policies, procedures and limits set by both the Board of Directors and the Executive Director.

Financial Risks

PROFONANPE's activities are exposed to a set of financial risks, the potential adverse effects of which are permanently evaluated by the Executive Director, in order to minimize them. Likewise, the Executive Director approves and reviews the policies to manage the risks indicated below:

A. Market Risk

It is the risk that fair value of future cash flows of a financial instrument will fluctuate due to changes in market prices. In the case of the entity, market risks comprise two types of risk: foreign exchange risk and interest rate risk.

i) Exchange rate risk

The entity is exposed to fluctuations in the foreign exchange rates prevailing in its financial position and cash flows. Transactions in foreign currency are carried out at the exchange rates of the free market. The Executive Director is responsible for identifying, measuring, controlling and reporting on exposure to foreign exchange risk. Exchange risk arises when the entity presents mismatches between its active, passive and off-balance sheet positions in the different currencies in which it operates, which are mainly Soles (functional currency) and U.S. Dollars. The Executive Director monitors this risk through the analysis of variables that are applicable.

Transactions in foreign currency are carried out at market exchange rates published by the Superintendence of Banking and Insurance and Pension Fund Administrators. As of December 31, 2019, the weighted average market exchange rates for transactions in U.S. Dollars were S/ 3,311 for purchase and S/ 3,317 for sale (S/ 3,269 for purchase and S/ 3,379 for sale as of December 31, 2018).

As of December 31, 2019, and 2018, the Company has the following foreign currency assets and liabilities, which are summarized as follows:

	Al 31 de [December de
	2019	2018
	US \$	US \$
Assets:		
Cash and cash equivalents	7,291,527	7,486,891
Other accounts receivable	255,232	252,952
Advances from suppliers	2,998	9,452
	7,549,757	7,749,295
Liabilities:		
Other accounts payable	(270,290)	(262,150)
	(270,290)	(262,150)
Asset position,	net 7,279,467	7,487,145

During the 2019 period, the entity recorded a loss for net exchange difference amounting to US \$ 272,688. In the 2018 period, the exchange loss recorded was US \$ 38,482.

ii) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. As of December 31, 2019, and 2018, the entity does not have financing with banking entities, nor assets or liabilities that accrue variable interest rates; therefore, the Executive Director considers that it is not exposed to this risk.

B. Liquidity risk

It is the risk that the entity will not be able to meet its payment obligations related to financial liabilities at maturity. The consequence would be default in the payment of its obligations towards third parties. As of December 31, 2018 and 2017, financial liabilities are supported by income flows from cash and cash equivalents and accounts receivable in general. Liquidity is controlled by matching the maturities of its assets and liabilities; obtaining credit lines and maintaining surplus liquidity, which guarantees the entity to carry out its activities without financial difficulties.

Liquidity risk management involves maintaining sufficient cash and availability of funding. The Executive Director guide its efforts to maintain the sources of funding provided by donors for the implementation of its activities.

C. Credit risk

The credit risk or the risk of default of the counterparties with which the entity has carried out operations is controlled through the approval of limits and monitoring procedures. As of December 31, 2019 and 2018, PROFONANPE does not carry out credit operations with third parties, for which reason the Executive Director considers that it is not exposed to this risk.

D. Fair value

Fair value is defined as the amount for which an asset could be exchanged or a liability settled between knowledgeable and willing parties in a current transaction on the assumption that the entity is a going concern.

Fair value is a market-based measurement, so a financial instrument traded in an actual transaction in an active liquid market has a price that supports its fair value. When the price for a financial instrument is not observable, fair value should be measured using another valuation technique, seeking to maximize the use of relevant observable variables and minimize the use of unobservable variables.

The assumptions and calculations used to determine the fair value of financial assets and financial liabilities are as follows:

- (i) Financial instruments recorded at fair value. Within this category, the entity considers investments in fixed income and variable income financial assets that make up its Investment Portfolio (included in the "Financial Investments" heading of the statement of financial position).
- (ii) Instruments whose fair value is similar to the carrying amount. Within this category, the entity considers cash and cash equivalents, other accounts receivable and liabilities in general.

On this basis, at December 31, 2019 and 2018, there are no differences between the carrying amounts and fair values of the entity's financial instruments presented in the statement of financial position.

.

INDEPENDENT AUDITOR'S OPINION ON COMPLEMENTARY INFORMATION

To the members of the Board of Directors and Executive Director **PROFONANPE** Lima - Peru.-

- 1. In regard to the audit of financial statements of **PROFONANPE** as of December 31, 2019, on which we have issued our report on October 09, 2020, we have also reviewed the additional financial information required by that entity included in Annexes N° 1 "Movement of Investments Portfolio"; Nº 2 "Structure of Investment Portfolio"; and Nº 3 "Project Balance". These annexes have been prepared by PROFONANPE Executive Director, in compliance to its records, according to accounting principles described in Note 2 to the financial statements.
- Our review was conducted in order to express an opinion on the financial statements taken as a whole. The accompanying additional financial information is submitted pursuant to the requirements established by PROFONANPE and is not necessary for a fair presentation of the financial statements at that date. This additional information has been subject to audit procedures applied to the financial statements and therefore, included selective tests of the accounting and implementing other audit procedures as we consider necessary in the circumstances, therefore, in our opinion is fairly presented, in its important respects in relation to the financial statements taken as a whole.
